Introduction to the German Style Street-Rotenburg in Taicang

Rothenburg is the most complete town in Germany that preserves the style and features of the medieval ancient city. Rothenburg means "Red Castle" in German, and the roofs of the houses in the town are mostly dark red, hence the name. Walking in Rottenburg feels like being in a fairy tale world.
The Taicang Rotenburg German style street project is located on the New Liuhe River, with a total construction area of about 32,000 m2. The construction content includes the Maritim Hotel in Germany, as well as relevant commercial supporting facilities. Strive to create a cultural and tourism platform that integrates humanities, art, youth trends, and micro vacations, as well as a stage for Sino-German cultural exchanges, build a carrier for Sino-German economic, trade, cultural, and educational exchanges and cooperation, and promote innovation and cooperation between Taicang and Germany.

The tower clock on the landmark tallest building in German style street is originally made in Germany and meticulously crafted by German craftsmen from the German company PERROT. PERROT is one of the world renowned companies with the longest history and the richest experience in the industry. The tower clock is composed of four clocks with a diameter of 2.5 meters, and its exquisite craftsmanship fully embodies the essence of "Made in Germany" products.

Introduction to German Tower Clock Factory-PERROT

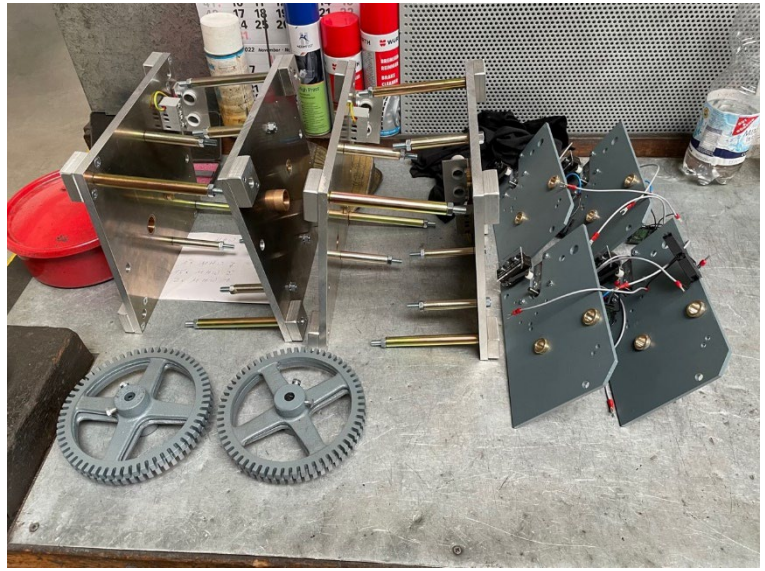
Manufactured in Germany from 1860 - PERROT Tower Clock

Founded in 1860, PERROT Tower Clocks and Bell Ringers is one of the world's oldest and most experienced companies in the industry. This company is now a fifth-generation family-owned business. In all generations, tower bells and bell ringers have been built, developed, manufactured, and contributed. A high level of internal production ensures the quality of "Made in Germany" products.

The expertise of Perrot's mechanical clocks and later electromechanical tower clocks can be found in our radio controlled master clock PERCONTA, motor manual drives, and fixed hammers, as well as in the material selection and design of clock faces and pointers. In addition, we use the latest technology to produce a second hand, luminous digits, and a clock with a clock face or background lighting, as well as the most diverse analog indicating instruments, such as thermometers, hygrometers, anemometers, and so on. We can move the pointer and accurately position it on all dimensions. Over the years of research and development in this field, we have helped establish a wide range of clocks, yokes, accessories, clappers, and clock frames with damping.

German Tower Clocks Are Being Handmade in Germany

Customized by Taicang Roundtable-TRT, the German style street tower clock is in PERROT processing, production, installation within the company. Precision machining, combined with purely manual craftsmanship, fully reflects the exquisite craftsmanship and excellent quality of German craftsmen.



German Tower Clock Installation Titbits

The tower clock was installed and commissioned in Taicang German style street in December 2022. The installation and commissioning were successful and handed over to the relevant owners in mid of February 2023 in Taicang.

German Tower Clock Day/Night Scenery

The Taicang Rotenburg German style street is dedicated to creating a cultural and tourism platform integrating humanities, art, youth trends, and micro vacations, as well as a stage for cultural exchanges between China and Germany, building a carrier for Sino-German economic, trade, cultural, and educational exchanges and cooperation, and promoting innovation and cooperation between Taicang and Germany. We will extensively expand our all-round cooperation with Germany in the fields of science and technology, education, culture, ecology, and cities, create a stronger German lifestyle scene, and continuously polish the brand of "Sino German Innovation City".

The beautiful appearance of the German Tower clock on the German style street fully reflects the spirit of friendship and cooperation between the Chinese and German people. Now Taicang people can enjoy the “Romantic fairy tale city" at their doorstep!
